322 APPROVES APPLICATION OF NANCY RINEHART

Councilperson Pike offered the following resolution, which was seconded by Councilperson Boschetti:

WHEREAS, Nancy Rinehart of 70 Dyer Avenue, Collinsville, Connecticut, applied for a building permit for construction of a deck being 12' x 32.4' and set back 14 feet from the top of a bluff at premises located at the North side of Roanoke Avenue, Riverhead, New York, known as SCTM 0600-15-1-3; and

WHEREAS, in accordance with Chapter 107 of the Riverhead Town Code, the Conservation Advisory Council (hereinafter referred to as "CAC") inspected the site on January 3, 1988, and has made a recommendation to the Town Board that a permit not be issued to Nancy Rinehart for the construction of a 12' x 32.4' wood deck on Roanoke Avenue, Riverhead, New York; and

WHEREAS, the applicant interposed a request for a public hearing regarding the CAC's recommendation; and

WHEREAS, said public hearing was held on the 15th day of March, 1988, at 8:30 p.m. and all persons wishing to be heard were heard; and

WHEREAS, the following findings of fact have been made:

1. The subject premises are located adjacent to the Long Island Sound;

2. A survey dated November 5, 1987, prepared by Young & Young was submitted showing an existing two-story residence with proposed deck and two stone jetties;

3. On December 7, 1987, the New York State Department of Environmental Conservation has reviewed the proposal to construct a wooden deck on an existing two-story, frame single-family dwelling and found that no permit under Article 25 is required since the proposal is beyond State mandated jurisdiction being landward of the topographical crest of the bluff, cliff or dune in excess of 10 feet in elevation above mean sea level;

4. Testimony was offered as follows:

a. The subject premises have been improved with a residence since the 1940's;

b. The subject premises are located 26 feet from the top of the bluff;

c. The face of the bluff is stabilized by vegetation and two stone jetties;

d. The toe of the slope is protected by two stone jetties;

e. The subject property has not experienced erosion due to the jetties contrary to the rate of erosion reported by the Marine Science Research Center at SUNY at Stony Brook in areas not protected by two jetties;

f. In 1987, the applicant enclosed an existing porch and placed three sliding glass doors which is elevated approximately five or six feet from grade requiring additional construction;

g. The deck construction will involve wood construction and four to six poles.

5. The Environmental Quality Review Board has recommended that this action be classified as a Type II Action under the criteria of Section 617 of the State Environmental Quality Review Act;

6. The Town Board of the Town of Riverhead recognizes and affirms the policy of the CAC to discourage construction within 100 feet of the crest of the bluff. However, the applicant has proven that the subject property is significantly protected from erosion and to deny the application will create a hardship.

NOW, THEREFORE, BE IT

RESOLVED, that the recommendation of the EORB that this action be considered to be Type II under the criteria of Section 617 of SEQRA be adopted; and be it further

RESOLVED, that Nancy Rinehart's application be and is hereby approved subject to the following conditions:

1. No disturbance of the face of the bluff shall occur during or after construction;

2. All stormwater runoff shall be directed away from the bluff with provisions for adequate leaching pools;

3. This Board retains jurisdiction to amend this approval in the event that conditions change at the site;

4. The approved deck shall remain as an open deck and shall be built on wood pilings in a dimension which will properly support said structure; and be it further

RESOLVED, that the Town of Riverhead has relied on statements made by the applicant for the issuance of the permit and that the applicant will be constructing the deck addition at her own risk; and be it further
